Matthew Ho

Institute for Advanced Study · 1 Einstein Dr, Princeton, NJ 08540
he / him · matthew.annam.ho@gmail.com · maho3.github.io · maho3 · matthewho3

Highlights

- **36 papers** in leading astrophysics, machine learning, and physics journals (6 first-author, 8 led by my students).
- **19 students mentored** (11 undergraduate, 6 Master's, 2 Ph.D.); 6 now in top Ph.D. programs.
- **$7M+ in research funding** secured as a core collaborator on major grants.
- **Lead the Inference working group** of the Simons Collaboration on Learning the Universe, building its machine learning inference framework (`ltu-ili`); member of the *Euclid*, LSST DESC, and Aquila consortia.
- **10+ university courses and summer schools** taught as instructor, lecturer, and teaching assistant.

Research Experience

2026 – 2029 **Member**, Institute for Advanced Study — Princeton, NJ
Research on machine learning methods for constraining astrophysical theory with observations, including simulation-based inference, accelerated forward modeling, interpretable representation learning, and agentic science.

2022 – 2026 **Postdoctoral Research Fellow**, Institut d'Astrophysique de Paris & Columbia University — Paris & NYC
Joint 2+2 year position within the Simons Collaboration on Learning the Universe developing accelerated emulators and inference models for cosmological analysis.
Advisors: Benjamin Wandelt, Guilhem Lavaux, Greg Bryan

Education

2017 – 2022 **Ph.D., M.S. Physics**, Carnegie Mellon University — Pittsburgh, PA
Thesis: *Deep Learning for Dynamical Mass Estimation of Galaxy Clusters*
Advisor: Hy Trac · GPA: 3.97

2021 – 2022 **M.S. Machine Learning**, Carnegie Mellon University — Pittsburgh, PA
Research Interests: Deep Learning, Bayesian Modeling, Approximate Inference, Generative Models · GPA: 4.0

2014 – 2017 **B.S. Engineering Physics**, University of Illinois at Urbana-Champaign — Urbana, IL
Minor in Mathematics · Research advisors: Lucas Wagner, Guy Garnett

Grants & Fellowships

2026 **Keystone Astronomy & AI (KAAI) Fellowship**, McWilliams Center, CMU
One-month visiting fellowship, supported by the Simons Foundation, conducting research on foundation models and agentic methods for astrophysical simulation, and hosting an associated workshop.

2025 – 2028 **Simons Collaboration**, Simons Foundation — **$6,000,000**
Collaborator on the renewal of the Learning the Universe Simons Collaboration ($700K to Columbia University), advancing machine learning analysis of cosmological and galaxy formation models for next-generation observatories including JWST, DESI, *Euclid*, and the Simons Observatory.

2024 – 2025 **NSF ACCESS Maximize Computing Grant**, National Science Foundation — **$438,732**
Collaborator on a computing grant of 42 million CPU hours and 20 GPU-years for dark matter and hydrodynamical simulations and machine learning emulators for the Learning the Universe project.

2023 – 2025 **ANR Appel à projets générique**, French National Research Agency (ANR) **€304,261**
Collaborator on ANR AAPG grant INFOCW, applying state-of-the-art simulations and machine learning inference to large-scale structure maps to infer cosmological parameters and initial conditions.

2022 – 2025 **NSF Astronomy and Astrophysics Research Grant**, National Science Foundation **$538,957**
Collaborator on NSF grant AST 2206055, developing multiwavelength machine learning models to probe halo environments and galaxy formation in cluster- and group-scale systems.

2021 **John Peoples, Jr. Research Fellowship in Physics**, Department of Physics, CMU
Full tuition and stipend, awarded annually to one outstanding physics graduate student.

2020 **McWilliams-PSC Research Seed Grant**, McWilliams Center for Cosmology
Full tuition and stipend for innovative, high-impact scientific research.

Ho, M., Farahi, A., Rau, M. M., & Trac, H. · *ApJ*, 908, 204H · 2021 · [ADS]

[2] **Aging haloes: implications of the magnitude gap on conditional statistics of stellar and gas properties of massive haloes**
Farahi, A., **Ho, M.**, & Trac, H. · *MNRAS*, 493, 1, 1361–1374 · 2020 · [ADS]

[1] **A Robust and Efficient Deep Learning Method for Dynamical Mass Measurements of Galaxy Clusters**
Ho, M., Rau, M. M., Ntampaka, M., et al. · *ApJ*, 887, 1 · 2019 · [ADS]

Mentoring

19 students (2 Ph.D., 6 Master's, 11 undergraduate) · 6 now in Ph.D. programs · 8 student-led papers

	STUDENT	PROGRAM	PAPERS	NOW
2026 –	**Fatemeh Hafezianzadeh**	Ph.D., CMU		
2026 –	**Vedanti Kshirsagar**	Master's, CMU		
2026 –	**Anshul Kumar**	Master's, CMU	[36]	
2026 –	**Julia Liu**	Master's, CMU		
2026 –	**Yixi Zhao**	Master's, CMU		
2025 –	**Eddie Aljamal**	Ph.D., U. Michigan		
2025 –	**Ariyana Bonab**	Master's, CUNY		
2024 –	**James Baldwin**	Master's, CUNY		Ph.D. student, U. de Montréal
2024 –	**Chaipat Tirapongprasert**	Undergrad, Columbia	[25, 26, 27, 33]	
2024 – 2025	**Thais Velazquez**	Undergrad, Barnard		
2023 – 2025	**Antoine Bourdin**	Undergrad, U. de Montréal	[12]	Ph.D. student, U. Chicago
2023 – 2025	**Kalvyn Adams**	Undergrad, CU Boulder	[34, 35]	Ph.D. student, UCLA
2022 – 2024	**Alan Hsu**	Undergrad, CMU	[21]	Ph.D. student, Harvard
2023 – 2024	**Caleb Ogle**	Undergrad, CU Boulder	[34, 35]	Ph.D. student, UW–Milwaukee
2022 – 2023	**Joyce Lin**	Undergrad, CMU	[21]	Ph.D. student, UW–Madison
2022 – 2023	**Kevin Hu**	Undergrad, Yale		
2021	**Bryant Dean**	Undergrad, Morehouse		
2020 – 2021	**Faith Ruehle**	Undergrad, CMU	[5]	
2019 – 2020	**Alexa Lansberry**	Undergrad, CMU	[5]	

Software Packages

2025 **ltu-cmass** maho3/ltu-cmass
A modular simulator of SDSS CMASS galaxy clustering.

2024 **ltu-ili** maho3/ltu-ili
An all-in-one framework package for machine learning inference in astrophysics and cosmology.

2024 **cuboid_remap_jax** maho3/cuboid_remap_jax
A Jax implementation to remap cubic volumes with periodic boundary conditions to non-cuboid volumes.

2024 **pytorch-iobs** maho3/pytorch-iobs
A lightweight implementation of Information-Ordered Bottlenecks (IOBs) in PyTorch.

2021 **CLMM** LSSTDESC/CLMM
A Python library for performing galaxy cluster mass reconstruction from weak lensing observables.

Presentations

INVITED (23)

Oct 2026 **IAS**, Bahcall Lunch — Princeton, NJ
Aug 2026 **CMU**, Machine Learning Department Seminar — Pittsburgh, PA
Aug 2026 **CMU**, McWilliams Seminar — Pittsburgh, PA
Apr 2026 **AMNH**, Astronomy Seminar — New York City, NY
Apr 2026 **Columbia University**, Astronomy Colloquium — New York City, NY
Feb 2026 **UToledo**, Physics Hot Topics Seminar — Toledo, OH
Feb 2026 **UToledo**, Physics Colloquium — Toledo, OH
Feb 2026 **UArizona**, Astronomy Colloquium — Tuscon, AZ
Feb 2026 **UT Austin**, Weinberg Institute Seminar — Austin, TX
Feb 2026 **UT Austin**, Physics Colloquium — Austin, TX
Jan 2026 **American University**, Physics Colloquium — Washington, DC
Jan 2026 **Illinois State University**, Physics Colloquium — Normal, IL
Jan 2026 **CCA**, Mock NYC: Improving Galaxy Modeling for Cosmological Inference — New York City, NY
Aug 2025 **Harvard University**, NSF IAIFI Summer Workshop — Cambridge, MA
Apr 2025 **Yale University**, Data Science and Physics Seminar — New Haven, CT
Mar 2025 **STScI**, Chesapeake ML-Astro Group — Baltimore, MD
Mar 2024 **University of Bristol**, SBI for Galaxy Evolution — Bristol, UK
Nov 2022 **IAP**, Univers Seminar — Paris, FR
Mar 2022 **Yale University**, Data Science X Astronomy & Astrophysics Seminar — New Haven, CT
Mar 2022 **Fermilab**, Cosmic Physics Center — Batavia, IL
Feb 2021 **CMU**, NSF AI Planning Institute for Physics of the Future — Pittsburgh, PA
Dec 2020 **DESI**, Artificial Intelligence Interest Group — Virtual
Jun 2019 **LMU Munich Observatory**, Weak Lensing Seminar — Munich, Germany

CONTRIBUTED (14)

Aug 2026 **CMU**, KAAI Foundation Models and Agentic Methods for Astrophysical Simulation — Pittsburgh, PA
Jul 2026 **UvA**, Cosmic Horizons Conference — Amsterdam, NL
Sep 2025 **NSF-Simons AI Institute for the Sky**, Open SkAI — Chicago, IL

May 2025	**UT Austin**, Cosmic Horizons Conference	Austin, TX
Dec 2024	**CCA**, Cosmology and Galaxy Astrophysics with Simulations and ML	New York City, NY
May 2024	**European AI For Fundamental Physics**, Annual Conference	Amsterdam, NL
Nov 2023	**IAP**, Debating the Potential of ML in Astronomical Surveys	Paris, FR
Apr 2022	**STScI**, Galaxy Clusters 2022: Challenging Our Cosmological Perspectives	Baltimore, MD
Sep 2021	**ESA**, A Multi-Wavelength View of Galaxy Clusters	Virtual
Jun 2020	**Joint Statistical Meeting**, Astrostatistics Student Paper Finalists	Philadelphia, PA
Jun 2019	**Artificial Intelligence Methods in Cosmology Workshop**	Ascona, Switzerland
May 2018	**CMU**, ML in Science and Engineering Conference	Pittsburgh, PA
Apr 2015	**NCSA**, Students Pushing Innovation Seminar	Urbana, IL
Dec 2014	**NCSA**, Students Pushing Innovation Seminar	Urbana, IL

Teaching Experience

2026	**Graduate Research Seminar II**, Guest Lecturer	Columbia
2025	**Astro-Skills: Numerical & Statistical**, Guest Lecturer	Columbia
2025	**IMPRS Heidelberg Summer School on AI for Astronomy**, Lecturer	Heidelberg
2024	**Frontiers of Astrophysics**, Guest Lecturer	Columbia
2021	**Introduction to Astronomy**, Instructor	CMU
2017 – 2021	**Teaching Assistant**, 9 course sections Matter & Interactions I (×3) · Physics II for Engineering and Physics Students (×3) · Physics I for Engineering Students · Physics for Future Presidents · Advanced Computational Physics	CMU

Organized Conferences & Workshops

2026	**KAAI Foundation Models & Agentic Methods for Astrophysical Simulation** Lead Organizer	Pittsburgh, PA
2025	**SBI for Galaxy Evolution Workshop**, SOC	Bristol, UK
2024	**Cosmology and Galaxy Astrophysics with Simulations and ML**, SOC	New York City, NY
2024	**SBI for Galaxy Evolution Workshop**, SOC	Bristol, UK

Service & Outreach

RESEARCH COMMUNITY & INSTITUTIONAL SERVICE

2025 – 2026	**Columbia Astro-ML Interest Group**, Organizer
2024 –	**Aquila Consortium Contact Unit**, Committee Member
2023	**Learning Learning the Universe**, Organizer and Presenter
2020 – 2021	**McWilliams Software Seminar Series**, Organizer
2020 – 2021	**Vera Computing System Commissioning Committee**, Committee Member
2017 – 2021	**Department of Physics Industry Speaker Seminar Series**, Founder, Organizer
2019 – 2020	**CMU Data Science Club**, Project Lead

PUBLIC OUTREACH

2025	**Astronomy on Tap**, Presenter	Baltimore
2025	**Columbia Public Outreach Science Talks**, Presenter	New York City
2022	**Astronomy on Tap**, Presenter	Pittsburgh
2021	**Carnegie Science Center**, Career Panelist	Pittsburgh
